# Windows

From sash windows to casement windows and Tilt and Turn windows to roof windows, in modern and classic window designs; we have it or can design and build it for you. We also provide many energy efficient options including double glazing and triple glazed A-Rated windows.

Composite windows are comprised of an aluminium frame separated for a special thermal insulation layer called a "polymide" layer. The result is a top-of-the-range window solution that offers best in class thermal shielding from the elements outside.

- Our Spectus Window sections are all glazed from the inside so glass can not be removed externally.
- Internal shootbolts are also standard on all windows for added security.

# Doors

We supply and fit the highest quality Palladio Doors. They combine safety, style and durability.

We have been fitting these doors for a number of years and they still surprise me with their outstanding strength and style.

- A-rated PVC Doors available to supply or supplied and fitted.
- Eight point locking system as standard for a composite door.
- Available in ten different colours with a choice of having different colours inside and out!

# Canopies

Provide cover and protection for you door by adding a Canopy. Our Canopies compliment the door designs and offer a unique look to the chosen design. Adding a canopy to you door will offer extra protection against the elements and can completely transform the external look of your home.
